

ELKAY

WE ARE SUSTAINABLY INSPIRED
Meet our drinking water solutions for any project

For more than a century combined, **Elkay has been providing clean water solutions that promote healthy hydration.**

Elkay drinking water solutions are designed to meet or exceed facility needs and specifications of **education, health care, hospitality, multifamily, municipality, office, retail** and commercial facilities. Select from a wide variety of bottle filling stations, water coolers, outdoor and indoor drinking fountains, water dispensers and remote chillers that comply with accessibility standards as well as models that offer the added assurance of our WaterSentry® filters.

Through the years, **Elkay has continued to launch new products, designs, and innovations**, and serves as a thought leader in an amazing array of different industries.

Elkay is a name you can trust

Drinking water supply solutions for every need

All of our products are designed to fully meet your drinking water supply needs and specifications.

Our expansive portfolio of drinking water products is designed to provide cleaner, healthier hydration wherever you need it. Many units feature hands-free sensor activation to minimize touch and minimize the spread of germs.

Elkay's solutions are not only hygienic but also sustainable, helping to limit dependency on single-use, disposable plastic water bottles. When it comes to healthier hydration, whether on the go or at home, Elkay is here to help.

Cleaner, Healthier Water

Our ezH2O® bottle filling stations provide convenient, sustainable, and healthier hydration. The perfect solution for nearly every application, our enhanced units have all the great features of our original line with added ingenuity.

Hands Free

Sensor activation and bottle rest platform provide users with a touchless bottle filling experience.

Minimal Splashing

Dispenses a clean, laminar flow of water.

Filter Status Lights

Lights indicate when filter needs changing so you always know you're getting filtered water.

Real Drain

The basin includes a designated drain under the bottle filler to collect runoff and prevent standing water.

Quick Fill

Fill rate is 1.1 GPM for refrigerated units and 1.5 GPM for non-refrigerated units.

GREEN TICKER

Green Ticker informs the user the number of 20 oz. plastic water bottles saved from waste.

GREEN TICKER

Green Ticker™ informs user of number of 20 oz. plastic water bottles saved from waste.

FREEZE RESISTANT

Hermetically sealed refrigeration system provides chilled water to satisfy thirst.

ACTIVATION

Bottle filler

Touchless, sensor activation designed for easy hands free use.

Bubbler

Mechanical push-button activation.

FILTERED

The 3,000-gallon filter is certified to NSF 42 and 53 for lead, Class 1 particulate, chlorine, taste and odor reduction.

INDOORS

Rated for indoor use.

ANTIMICROBIAL PROTECTION

Flexi-Guard bubbler provides a flexible antimicrobial mouth guard to protect against injury and microorganisms.

Silver ion antimicrobial protection on key plastic components to inhibit the growth of mold and mildew.

Elkay water coolers and drinking fountains come in a variety of styles

From standard design with enhanced hands-free operation to sleek, architectural SwirlFlo® fountains, there's a model for any space. Many coolers can even be retrofitted – add a bottle filler or make them touchless by swapping out components with sensor-activated ones.

Most units offer our WaterSentry® filters as options and our Flexi-Guard® Safety Bubbler, which provides a flexible, antimicrobial mouth guard to protect against injury and microorganisms.

OUTDOOR

Outdoor Tubular Bottle Filling Stations and Fountains

Our outdoor tubular bottle filling stations and drinking fountains offer attractive, long-lasting durability to withstand tough weather conditions. The strong exterior is made from Type 316 stainless steel — standard on all Elkay outdoor tubular models.

They are built for busy areas such as parks, pool decks, golf courses, and school and work campuses. An optional foot pedal accessory provides a hygienic upgrade for hands-free bottle filling activation.

MINIMAL SPLASHING

Laminar flow provides clean fill with minimal splash.

FREEZE RESISTANT

Freeze-resistant options available.

FOOT PEDAL ACTIVATION

Convenient foot activation for healthier, hands-free bottle filling.

Activates bottle filler only and will not activate attached fountains.

Pedal will not deactivate the bottle filler push button.

Attaches to lower access panel opening for secure connection and easy installation.

Powder-coated exterior over Type 316 stainless steel provides protection from the elements.

OUTDOORS

Ideal for outdoor use.

ACCESSORIES

WATER FILTERS

Elkay water filters provide cleaner, great tasting water for our bottle filling stations, water coolers, drinking fountains and water dispensers.

Made with activated carbon to improve taste and odor, our filters are tested and certified to NSF/ANSI standards for the reduction of lead, cysts and other harmful contaminants.

Engineered for performance, radial flow-thru design ensures efficient treatment of incoming water for cleaner, healthier hydration.

CHILLERS

Convert any drinking fountain into a water cooler with a remote water chiller.

Elkay water chillers provide 10 degrees Celsius drinking water and meet federal and state low-lead requirements. In schools or offices, convert existing wall fountains into refrigerated water coolers by installing the compact chiller within, or behind building walls.

In factories, save floor space and protect the water chiller from damage by installing the chiller overhead and out of the way.
